## Continuation Sheet (PTOL-303):10/079,389

Application No.

Continuation of 2. NOTE: New issues are raised, "...plurality of said edge width measurements correspond to changes in profile angle of said photosensitive resist" in claim 1, "...wherein said edge width measurements correspond to changes in profile angle of said photosensitive resist" in claim 22 and "...wherein said three dimensional profile changes correspond to changes in profile angle of said photosensitive resist" in claim 29, which would require both further consideration and search. Also, the Examiner respectfully notes what appears to be typographical errors in claim 28 in which parentheses were left out after the step letter labelings.

Continuation of 10. Other: The formal drawings filed on 7-15-04 are approved by the Examiner..
